## ABOUT THE MENTORS:

**Juhi Agrawal** is an Architect from CEPT University and founder of 'The Ant Studio'. Her passion for material narratives started when she was doing her M. Arch in Theory & Design. The question of 'what we like, why we like' took her to do research on 'Kinesthetics'. She believes that learning all aspects of architecture is important to understand it fully and exploring materials and their language is one of them. The parallel approach to also understand the sustainable future of these materials to comprehend good quality of Life for future is one of her objectives. She has been the participant of national and international workshops on materials at renowned institutions like Hunnarshala, World Bamboo Workshop, etc.

**Neha Jain** is an Architect trained in Bamboo construction from BAMBOOU, Bali. She is passionate for Bamboo and its futuristic aspects. She believes that Bamboo is the future of the construction industry. Her experience counts from commercial architecture design to bamboo design. She has been the part of BambooU, Auroville Bamboo workshop, World Bamboo Workshop, etc. Learning from so many famous institutions she has developed a keen interest to explore more with Bamboo so that she can contribute to Indian Construction Industry.
